22 The Saga of a Calypso Crab
Animation historian and critic Charles Solomon recounts the creation of that colorful character from *The Little Mermaid*, the calypso crab Horatio Thelonius Ignatius Crustaceous Sebastian—who actually began life as a turtle named Clarence.

24 The Highwaymen
Johnny Cash, Waylon Jennings, Willie Nelson, and Kris Kristofferson are The Highwaymen, the greatest gathering of country music talents in one group. Critic Dave Marsh profiles the men, the music, and the lives they've led—the very heart and soul of country legend.

A LETTER FROM THE STUDIO

Since the Dawn of Man, people have dreamed of soaring through the air like birds. Well, the man standing next to me in the picture below has done just that. He's Bill Campbell, who will star this summer in the new Disney movie, *The Rocketeer*.

Bill plays Cliff Secord, a barnstorming pilot during the 1930s who discovers a one-of-a-kind rocket pack that enables him to blast off into the sky. With the pack and helmet on, this ordinary guy becomes an extraordinary hero—The Rocketeer.

Unfortunately, a number of villains want to get their hands on the amazing rocket pack, including some Nazi henchmen who want it for Hitler's war effort. Singlehandedly, Bill must fend off these foes, relying on the rocket pack and his own ingenuity.

Bringing the popular *The Rocketeer* comic book to the screen required some ingenuity of our own. It is one of the most complex film projects in Disney history. The last time we gave our special effects wizards this big a challenge was in *Honey, I Shrunk the Kids*,

when they had to "shrink" the four lead characters to 1/4 inch in height. For *The Rocketeer*, they had to make Bill fly over, around and, literally, *through* buildings. And, to convincingly depict the film's far-flung locales, our designers had to build sets that included a 60-foot-high zeppelin, an extravagant Art Deco nightclub, and a medieval castle.

All of this was done with one goal in mind: to make *The Rocketeer* one of the year's most exciting films when it flies into theaters this summer.

But before the June 21 premiere of *The Rocketeer*, you first have the chance to attend another premiere—the world television premiere on May 5 of *The Little Mermaid*. As a Disney Channel Subscriber, you have a reserved seat for this exclusive television event.

The Little Mermaid is one of the proudest achievements of The Walt Disney Studios. The enchanting characters, the magnificent soundtrack and the sheer beauty of the film have delighted audiences around the world. I know you will be captivated by this very special film, which has already taken its place as a true Disney classic.

FAMILY PORTRAITS

IS YOUR FAMILY STAR MATERIAL?

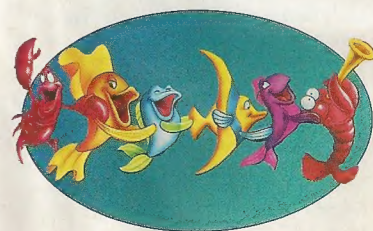

If so and you've been a subscriber for at least one year, you could be featured in a family portrait that will appear on The Disney Channel. Just submit in writing (25 words or less), why your family wants to be filmed. Please include a photo of your family and the name, age and address of all family members. Specify the length of time your family has subscribed and be sure to include daytime telephone number. Write us before June 15, 1991 and send to "Family Portraits," P.O. Box 2244 Chatsworth, CA 91313.

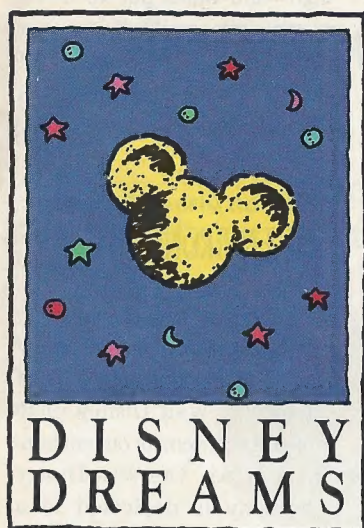

Letters and photos become the property of The Disney Channel and cannot be returned.

IN ADDITION TO OUR UNIQUE PROGRAMMING, WE'D LIKE TO SHOW YOU OUR APPRECIATION.

The Disney Channel Thank You Week is our way of thanking you for being part of The Disney Channel family. Please enjoy a week of extra special programming, including the World Television Premiere of "The Little Mermaid." Plus, the chance to enter our "Disney Dream" contest. Or, to tell

us why your family would like to appear on The Disney Channel in one of our "Family Portraits." We are also offering great values on Walt Disney World Resort and Disneyland Park vacation packages as well as other valuable Disney merchandise just for our Disney Channel subscribers.

MAKE YOUR DREAM COME TRUE.

No matter what your "Disney Dream" may be, we want to hear about it. And, it may come true. Yes, The Disney Channel is looking to fulfill "Disney Dreams." Dreams must be received by June 15, 1991. Print your "Disney Dream" on one 8 1/2" x 11" piece of paper, include name, age, address, daytime phone number, a photo of yourself and tell us if you are a Disney Channel subscriber. Send it to "Disney Dreams," P.O. Box 2245, Chatsworth, CA 91313.

One adult (age 18+) and one child (ages 6-17) as of June 15, 1991, will be selected and will have his/her dream come true and aired on The Disney Channel. So hurry and enter today!

Winning "Disney Dreams" will be selected by the producer based on originality, feasibility and cost. Dreams must not exceed \$15,000, and must be fulfilled during August, 1991. Segments of the winning "Disney Dreams" will be aired on The Disney Channel. Void where prohibited. **No purchase necessary.** (See page 39 for details.)

Magazines ADVENTURES FOR YOUNG READERS

What has been the most memorable moment on the football field for Joe Montana, the greatest quarterback in the history of football? What's it like for Bronson Pinchot to star on a hit network sitcom? The answers to these questions can all be found in the *Disney Adventures* magazine, a new lifestyle magazine for

readers seven to 14. Published monthly, the magazine is a mix of great comics and fascinating feature articles. In the May and June issues, young readers can meet the short-wave radio operator who first broke the news of Iraq's invasion of Kuwait to the world. Discover everything you ever wanted to know about the phenomenon of earthquakes—and meet a doctor-botanist who explores uncharted territory around the world in a search for rare plants.

Walt Disney World Resort ADDED ATTRACTION

As Walt Disney World Resort prepares to celebrate its 20th anniversary, its newest theme park, The Disney-MGM Studios has two new attractions.

The Honey, I Shrunk the Kids Adventure Zone, which opened this past December, transports guests into a strange world: Wayne Szalinski's suburban backyard. There blades of grass tower 30 feet

high—and watch out for those giant insects and deadly sprinkler heads. In May, The Disney-MGM Studios Theme Park introduces Muppet*Vision 3D.

The Walt Disney Company THE ENVIRONMENT

"If certain events continue, much of America's natural beauty will become nothing more than a memory," Walt Disney once noted. As concern for our environment grows, The Walt Disney Company is dedicated to a vigorous environmental policy.

In 1990, for example, The Walt Disney Company recycled 2,000,000 pounds of paper and 26,000 pounds of aluminum. The annual corporate report was published on recycled stock; and the Company is committed to purchasing as many recycled paper products as possible. But the efforts also range from use of alternative fuels at Disneyland to used-oil reclamation centers at Walt Disney World.

From Walt Disney Records A NEW ALBUM BENEFITS THE PEDIATRIC AIDS FOUNDATION

On May 28, Walt Disney Records releases *For Our Children*, an album benefiting the Pediatric AIDS Foundation. With an all-star lineup of 20 performers—including James Taylor, Paula Abdul, Bob Dylan, Carole King, Sting, Barbra Streisand, and Bruce Springsteen—*For Our Children* features music legends performing new and traditional children's songs. All proceeds from the album will be donated to the Pediatric AIDS Foundation.

The Pediatric AIDS Foundation was established in 1988 by Elizabeth Glaser and friends. In 1981, Glaser contracted the AIDS virus following the birth of her daughter Ariel, and unwittingly transmitted the disease to her daughter. Both the inspiration for the album, and its cover, come from Ariel Glaser, who died in 1988. One of her requests was to meet James Taylor; when that proved impossible, Taylor sent Ariel a tape of his songs

especially for her. The cover of *For Our Children* bears a drawing by Ariel Glaser. Since its inception, the foundation has raised over four million dollars for pediatrics AIDS research.

Say hello to Fisher-Price Bath Care. Innocent care for skin and hair.

Fisher-Price has created a line of extra-gentle hair and skin care products made solely for infants and children. Since mothers have told us that "less is more" in product formulas, we've kept them as simple and innocent as possible. Each is free of unnecessary ingredients.

Fisher-Price Baby Shampoo cleans thoroughly and is as gentle to eyes as water. Our Baby Bath cleanses without irritating and is less drying than soap. The Baby Lotion moisturizes and protects skin from irritation. Our tear-free Conditioning Shampoo for older children makes wet hair easier to comb, while the 99% oil-free Gentle Conditioner detangles, making hairstyles more manageable.

At Fisher-Price, we believe in bath care products that contain nothing more than your child needs. And certainly nothing less.

Recyclable packaging.

Child Development GETTING BY BEING SHY

It hardly matters if you're four or 40, feeling shy is very uncomfortable. It's also very common. But for parents, having a shy child can raise a host of questions about the impact of a shy temperament on the child's future, and it can also lead the parent to social prodding.

Lynn Henderson, director of the Palo Alto Shyness Clinic, and a marriage and family counselor, says that shyness is simply an emotional discomfort in social situations, with symptoms ranging from an increased heart rate or pounding heart to sweaty palms, blushing, or a sense of freezing. It feels, she says, a lot like anxiety, except that it only happens in social situations.

Shy children—and adults—are in good company. A large cross-cultural study done by Dr. Philip Zimbardo, a psychologist at Stanford University, shows that 40 percent of the population is chronically shy, and 93 percent report feeling socially awkward part of the time. Other studies have attributed shyness to three sources: heredity, lack of social skills and low self-esteem.

There's a time developmentally when most children are shy—or at least wary of strangers—at about 12 to 18 months. This is a clinging period, says Henderson, when new people and social situations that include more than a family's intimate circle will cause behavior that suggests shyness. Many children grow out of the stage. Those who don't may be considered "slow to warm up" children by those who study such behavior.

Once past the toddler period, the next big shyness hurdle typically comes during early adolescence. It's a time when body changes call great attention to how the adolescent looks, and

also a time when new and exciting relationships and social demands are developing.

Whether a child is lonely in first grade because he has trouble asking friends to join him on the playground, or scared in high school to ask someone to next week's party, the role of a parent is much the same: to accept and acknowledge the child's feelings, and to help develop strategies to deal with the situation.

For the younger child, Henderson suggests that a parent encourage the child to have a friend come over to play, and to offer to make those arrangements for the child if the child wishes. "Once a shy child has a chance to be comfortable and familiar with another child or two, he will start to warm up," says Henderson. "Don't give in to the withdrawal; kids who are allowed to withdraw too much have difficulty developing," she adds. "However, a parent can still follow the child's interests. So, for example, if he is shy about engaging in sports, a day trip to the museum's dinosaur exhibit with a classmate may be a good way for the child-

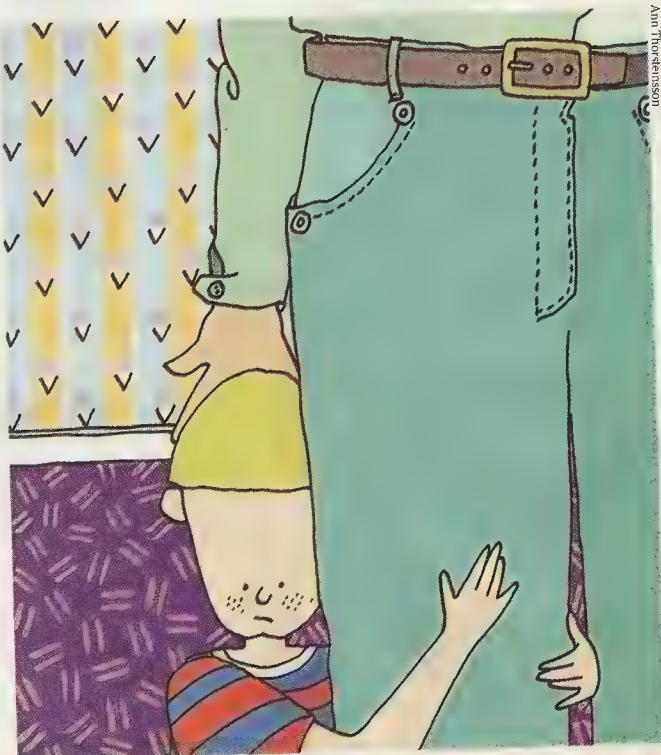

dren to spend time together."

The choice of teachers and school environments can also make a big difference in helping a shy child become comfortable. Henderson suggests that parents who know their child is shy should look for a school that has some sophistication about shyness, and offers play situations that will not leave shy kids on the sidelines.

Yet at the same time, she warns parents that all schools may subtly reinforce shyness in the classroom. Shy children are often liked by teachers because they're quiet, they're easy to manage, and they frequently do well in their studies.

Shyness in the older child is usually caused by being overly self-conscious and is coupled with the fear of being viewed negatively, says Henderson. Again, parents can help their teenagers by supporting their self-image and by encouraging them to communicate their feelings. In Henderson's small group sessions at the Shyness Clinic, she teaches social skills, how to inter-

RIGHT IN MY BACKYARD

Teach history in your own neighborhood? David Weitzman's *My Backyard History Book* (Little, Brown and Company, 1975, \$14.95) helps children age eight and up pursue local history. It's designed to show that history is more than just a list of events and dates, and it helps kids learn to interview relatives and neighbors, make rubbings from interesting architectural landmarks or rocks, collect old photographs, recipes, trinkets, maps, flora and fauna, read old local newspapers, and develop family archives. It even shows how to trace a town's growth from a tiny main street to a big city.

OLYMPIC PEN PALS

The United States Postal Service is introducing a new Pen Pal Club. Associated with the Olympic Games, the club provides children ages eight to 14 with the opportunity to learn about other cultures through the exchange of letters with children around the world. For more information, write: U.S. Postal Service Olympic Pen Pal Club, P.O. Box 9419, Gaithersburg, MD 20898-9419.

rupt the negative messages shy people often give themselves, and trains them in assertiveness. Such skills may be useful to many others.

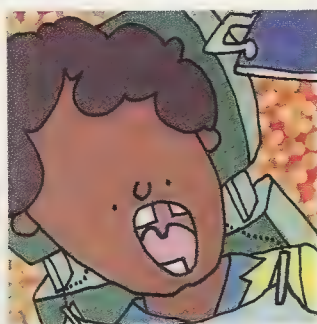

Henderson says parents, especially those who are extroverted, should be careful to avoid labeling a child as shy and trying to change their child into something he or she may not be. "Such parents may transmit a message to their child that he's not O.K.," she says. This type of message can be devastating to someone who is already afraid of disapproval.

SAVING SPACE: THE NEW PREVENTIVE ORTHODONTIA

Losing baby teeth isn't simple anymore. Orthodontists have found that the natural process of losing first teeth to make room for permanent teeth benefits from professional monitoring. By managing the early space opportunities and delays that occur in a child's mouth, later orthodontia can often be prevented or minimized.

Sometimes teeth fall out early; other times they are late to loosen. According to Sheldon W. Rosenstein, D.D.S., M.S.D., clinical professor of Orthodontics at Northwestern University, if a tooth comes out before the permanent tooth is ready to replace it, the other teeth will tend to move forward to fill the space. That can

Kids in the Kitchen HANDY OATMEAL COOKIES

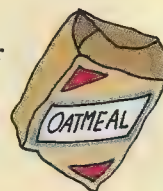

Here's what you need:
(Take out all items before beginning)

Ingredients

- 3 sticks of butter or margarine (1 1/2 cups)
- 3 cups of old-fashioned oatmeal
- 1 1/2 cups brown sugar
- 1 1/2 cups flour
- 1 1/2 teaspoons baking powder

- large mixing bowl
- measuring cup
- cookie sheet
- clean hands (yours!)
- knife or spatula for taking cookies off cookie sheet

Here's what you do:

1. Turn on oven to 350 degrees F.
2. Place butter or margarine in the bottom of the large mixing bowl. Let stand at room temperature for 1/2 hour to soften or put it in your microwave oven (on low) for one minute.
3. Add the oatmeal, brown sugar, flour and baking powder to the softened butter or margarine.
4. Using your hands, mix it... mash it... squish it... together. Now mix it some more.
5. Next, take a small piece of the cookie dough and roll it into a small ball about the size of a ping-pong ball.
6. Place the ball on a cookie sheet and continue to make more balls, placing them 2 inches apart.
7. Bake for 10 minutes.
8. Using pot holders, remove cookie sheet and finished cookies from the oven. Let them cool for 15 minutes on the cookie sheet before taking them off and putting them on a plate or they will crumble.

(While one batch of cookies are baking, make up more balls for the next batch. If you don't have a second cookie sheet, put the balls on a small plate until the cookie sheet is ready for your next batch.)

WALT DISNEY'S CLASSIC

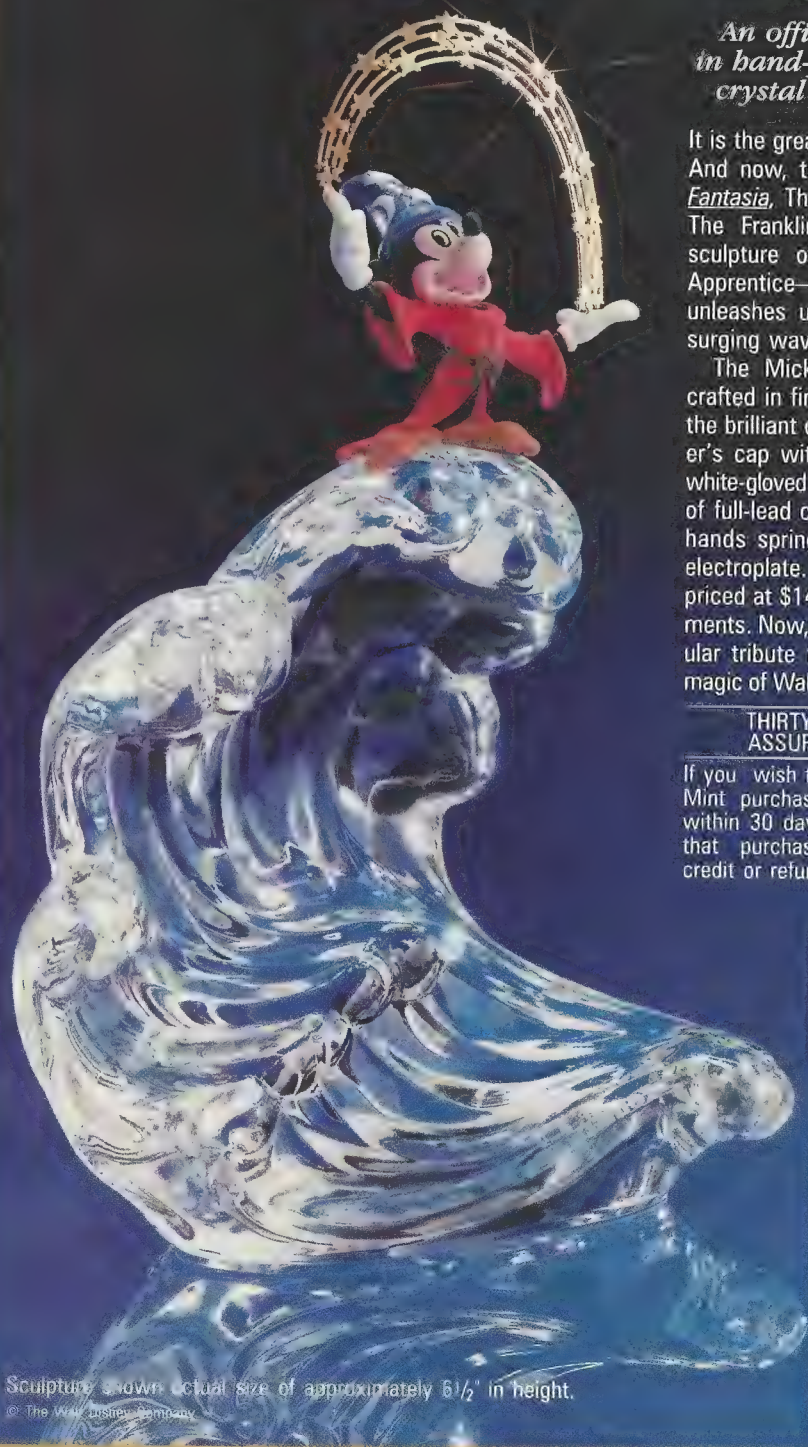

*An officially authorized sculpture
in hand-painted pewter and full-lead
crystal with 24 karat gold accents*

It is the greatest animated masterpiece of all times. And now, to celebrate the golden anniversary of *Fantasia*, The Walt Disney Company has authorized The Franklin Mint to create an unprecedented sculpture of Mickey Mouse as The Sorcerer's Apprentice—who boldly dons his master's cap and unleashes unbounded magic as he rides upon a surging wave of glory.

The Mickey Mouse sculpture is meticulously crafted in fine pewter and hand-painted to capture the brilliant detail of his bright red gown, the sorcerer's cap with stars and moon, and his legendary white-gloved hands. He stands atop a wondrous wave of full-lead crystal. And between his outstretched hands springs a shimmering arc of 24 karat gold electroplate. *The Sorcerer's Apprentice Sculpture*, priced at \$145, payable in convenient monthly payments. Now, join in this spectacular tribute to the never-ending magic of Walt Disney's *Fantasia*.

**THIRTY DAY RETURN
ASSURANCE POLICY**

If you wish to return any Franklin Mint purchase, you may do so within 30 days of your receipt of that purchase for replacement, credit or refund.

EDITOR'S NOTE

In our last issue (March/April '91), we published a margin note on the Association of American Publishers' booklet "Helping Your Child Succeed in School." In printing the address where interested readers could write to order a copy of the booklet (\$1.50), we omitted the street number for the AAP. The correct address is: AAP, 220 East 23rd Street, New York, NY 10010. We regret the omission.

necessitate the extraction of several permanent teeth later on.

A baby tooth can also be late to loosen. The permanent tooth will sometimes erupt anywhere behind, above, or in front of its proper place. Dr. Rosenstein says that in these cases, the baby tooth should be removed immediately.

Depending on the situation, spaces can be maintained for a still-to-come permanent tooth by cementing a metal band or bar to nearby teeth, which usually costs between \$100 and \$300. "Orthodontics run ten times that figure," says Rosenstein.

The best bet for parents, he says, is to have their children examined every six months, not just for a cavity check and cleaning but also for space assessment. He also suggests that anytime parents see anything unusual—a tooth coming in at an odd angle or place—they should have the family dentist or pedodontist check it out.

WHEN KIDS DON'T GET ALONG: TEACHING PEOPLE SKILLS

It can happen at school, at camp, at Little League or Brownies, or with kids in the neighborhood: your child is having trouble getting along with others.

While kids need to know their own minds and learn to be themselves, they also have to be able to work and play well with their peers. According to Gery LeGagnoux, Ph.D., director of Counseling and Psychological Services at the Corinne A. Seeds University Elementary School at UCLA, there are some basic people skills children can be taught—and some simple approaches parents can take—that can help those children who stumble in their efforts to be appreciated members of the group.

LeGagnoux says that kids who feel unpopular are typically either ignored or rejected. "The ignored kids have no impact on anyone; they're often overlooked even by the teacher," he says. Yet for many of these children, learning some basic ways to join a group may be all they need.

The rejected children are sometimes obnoxious, often put-down artists or bullies, sometimes attention-getters who tease or who bother the others by kicking the ball out of the playground. Some are rejected for things that are not under their control, like freckles or poor coordination. For the bothersome kids, the trick is to help them see how their behavior affects the others. For those with traits they can't control, the goal is to teach them coping skills that can help them get through the hard times and gain the respect of the group.

For any parent whose child is

struggling to become part of the pack, the greatest challenge is to help the child discuss the frustrations and identify some potential causes. The best time to get such a conversation going, says LeGagnoux, is when the child mentions he is having a hard time. For example, if a child is frustrated that he wasn't invited to a classmate's party, a parent could ask, "Why do you think that may be?" The child will probably quickly suggest that it's the other kid's fault. But eventually, says LeGagnoux, the parent can probably get the child to see there may be something he does that turns the others away.

Once the discussion of the problem is open, parents can help their children actually develop the skills they need. They can talk about what traits they think a friend should have—"What do you think a good friend is like?"—and ask them to decide how good a friend they think they are to others.

Role-playing can also be an ef-

fective tool. If a child says she's frustrated because she is never included in the four-square game at recess, a parent can say something like, "What could you say to the others if you'd like to join them?" LeGagnoux says a parent can then take the process a step further, pretending the child is already playing the game and the parent wants to join in. Later, the two can switch roles.

Parents can also create an environment at home in which everyone can feel comfortable discussing social frustrations. Involving kids in suggesting solutions to a parent's problems—"The others at the office keep going to lunch without even asking if I want to join them"—can show the child that everyone struggles with similar sorts of problems. It can also teach him or her people-related problem-solving that they can transfer to the playground, the classroom, and beyond.

TIPS FOR TEACHING CHILDREN PEOPLE SKILLS

1. Schedule downtime in every day for you and your child to talk or to just spend time together. Taking a long walk, playing a game of catch, even running errands can provide the personal time a child may need to discuss concerns with you.
2. Avoid giving quick advice. Parents need to listen and be supportive of the child.
3. When offering suggestions, say things like, "I wonder what would happen if you tried . . ." or "Would you feel comfortable saying . . ."
4. Try to identify what your own frustrations in peer relationships were as a child, and avoid working those issues out through your child. Don't burden the child with your perceptions of *your* own problems in getting along.
5. Provide your child a chance to share experiences with his friends; even a half-hour trip together with a classmate to a fast-food restaurant or an ice cream shop can help build a relationship.

Avonlea PETER COYOTE GUEST STARS IN AN EPISODE ABOUT LOVE AND JEALOUSY

"I like the spirit up here in Canada," remarked actor Peter Coyote on the set of *Avonlea*. Coyote, whose past credits include the films *E.T.*, *Jagged Edge*, and *Outrageous Fortune*, plays the character of Romney Penhallow

in the *Avonlea* episode "Old Quarrels, Old Love," which premieres Monday, May 13, at 9:00 p.m. (ET/PT).

"I play the old boyfriend of Hetty King [Sara Stanley's stern aunt]," Coyote says. "I took another girl to the dance in the seventh grade—an act I did to make her jealous—and she's never forgiven me. The story concerns that past event and the reestablishment of their friendship." Subscribers take note: there is an ironic twist that complicates this tale of old love.

Magical World of Disney CLASSIC ANIMATION

In addition to the world television premiere of *The Little Mermaid*, The Magical World of Disney also presents three films that feature Disney animation. On Sunday, June 16, there is a special encore presentation of *The Sword in the*

Stone. Based on T.H. White's Arthurian classic, it's the tale of young Wart, destined to become King Arthur, and his apprenticeship with the wizard Merlin. One of the film's highlights is a superb animated sequence, a sorcerer's duel between Merlin and the deliciously malignant Madam Mim. And in May, on May 12, in honor of Mother's Day, The Magical World of Disney presents *Disney's Salute to Mom*, which features favorite scenes of motherhood from the Disney animated classics and cartoon shorts.

On June 6, The Magical World of Disney presents *Pete's Dragon*.

HENRY V: SHAKESPEARE'S TALE OF WAR AND LOVE

When Kenneth Branagh made his film debut as a director with *Henry V*, he soon found himself in rare company: Branagh joined Orson Welles, Laurence Olivier, and now Kevin Costner as the only directors to receive Oscar nominations for directing themselves in leading roles.

Branagh's Oscar-winning adaptation of Shakespeare made film critics' 10-best lists across the nation. It was a major victory for the youthful director of The Renaissance Theatre Company, who believes that Shakespeare can still appeal to contemporary audiences.

"I don't approach the plays from an academic point of view," Branagh says. "Yes they are great literature and great poetry, but they are also theatrical works that truly live when performed. The plays were not written as literary texts—they were living documents shaped in performance. I'm sure Shakespeare himself altered scenes and dialog when presenting one of his plays.

"The wonder of his work lies in its universality. Every issue of concern today—from war and peace to love and betrayal—is to be found in his plays. They speak to us of the enduring realities of the human heart and mind."

Australia's exotic koala... a Bradford Exchange recommendation

Wide-eyed and innocent – as cuddly as they come – the koala is a friend to all. Now you can enjoy the irrepressible charm of this Australian native in a new limited-edition collector's plate.

"The Koala," by noted conservationist and wildlife artist Charles Fracé, is produced in full color on fine W. S. George china. And like exceptional wildlife collector's plates that have experienced dramatic price increases on the plate market, "The Koala" appears to have what it takes to go up in value once the edition closes.

Not every plate goes up in value; some go down. But the edition of "The Koala" is strictly limited to a maximum of 150 firing days, and demand is expected to be strong. So, if you wish to obtain this plate at the \$27.50 issue price, the time to act is now. THE SAGA OF A

Calypso Crab

Which recounts the creation of that colorful character from *The Little Mermaid*,
Horatio Thelonius Ignatius Crustaceous Sebastian

by
Charles Solomon

ne of the most successful animated features in the history of the art, Walt Disney Pictures' *The Little Mermaid* earned a record-breaking \$84 million at the domestic box office and has sold more than 9 million videocassettes. In addition to winning Academy Awards for Best Song and Best Original Score (the first cartoon feature to win an Oscar since *Dumbo* in 1942), *Mermaid* was the first animated film to be considered seriously for a best picture nomination.

Critics and audiences agreed that one of the principal ingredients in the film's success was the appeal of King Triton's court composer and confidante, Horatio Thelonius Ignatius Crustaceous Sebastian.

But few people know that this irrepressible calypso crab was originally intended to be a pompous turtle named Clarence.

"We started on the film with a two-page treatment, and Sebastian started life as Clarence," explains Ron Clements, who co-

wrote and directed *Mermaid*. "Bruce Morris did a series of visual storyboards, and he put a hermit crab in them. A crab seemed better than a turtle: We knew there was going to be an important character that would have to function both under water and above water."

The character of Sebastian began to take shape as Clements and his co-writer/director John Musker expanded the story. A key point

in calypso elements that would fit with the film and still give it that contemporary edge. We thought of the crab as a pompous character, and when Howard first said, 'Jamaican,' it didn't sound pompous enough."

"We liked the idea once we got used to it," adds Musker. "When we wrote the script, we wrote his lines in a Jamaican patois."

The design for Sebastian's physical appearance presented many of the same problems Jiminy Cricket's had, half a century earlier. As anyone who's ever visited a seafood counter can attest, crabs are strikingly unattractive: They have no faces, their eyes are on stalks, and their mouths are vertical. But the cartoon crab had to be appealing, as he supplied

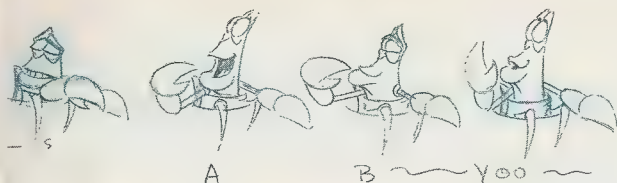

in his evolution came when the late Howard Ashman, the film's co-producer/lyricist, suggested making him a *Jamaican* crab.

"Howard wanted to get a contemporary edge into the music," says Clements. "He felt if he made the crab Jamaican, he could work

much of the film's comedy.

Typically, several artists contributed to Sebastian's final design, and Clements and Musker make a point of sharing the credit. Storyboard artists Ed Gombert came up with an original concept that designer Chris Buck,

sculptor Ruben Procopio, and directing animator Duncan Marjoribanks refined into the crab audiences know and love.

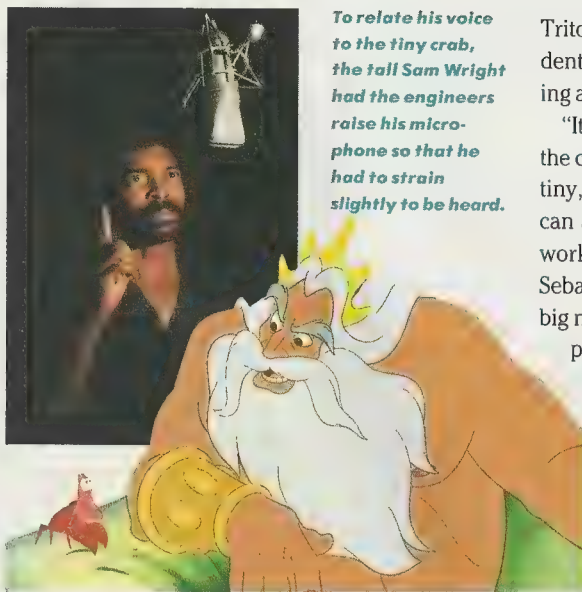

Clements and Musker cast Sam E. Wright and Jodi Benson as the voices of Sebastian and Ariel sight unseen, based on audition tapes Ashman had compiled in New York—the directors and actors didn't meet until the first recording session. Wright had portrayed jazz great Dizzy Gillespie in *Bird* and earned a Tony nomination for his portrayal of a strict father in *The Tap Dance Kid*.

The six-foot-three actor initially had trouble relating to his six-inch high character, so he had the engineers raise his microphone, forcing him to strain a little to be heard—as Sebastian would. The animators also shot videotapes of Wright performing “Under the Sea” and “Kiss the Girl” for reference footage.

When production began on *Little Mermaid*, the Disney animators were still at work on *Oliver & Company* and *Who Framed Roger Rabbit*. For the key animation of Sebastian, Clements and Musker hired Duncan Marjoribanks, a Canadian animator who had worked on television shows, including the “Family Dog” episode of *Amazing Stories*.

According to Marjoribanks, his principal inspiration for the animation of the crab was Wright's performance. “I could almost see Sebastian as I listened to the voice track,” he says. “A good performance by a voice actor can tell you who a character is, and Sebastian's physical appearance both supports the vocals and contrasts with them.

“Although I still can't see it myself, people often tell me they can see me in some of Sebastian's

To relate his voice to the tiny crab, the tall Sam Wright had the engineers raise his microphone so that he had to strain slightly to be heard.

expressions,” Marjoribanks continues. “To me, Sebastian is simply himself. But he's a complex character. He has a big ego for such a small body, and he's always in trouble because of his size. His sense of dignity is at odds with his fear of being crushed.”

Directing animator Andreas Deja, who animated King Triton, praises Marjoribanks's handling of Sebastian, and agrees that size and attitude were key factors in his performance. The two artists worked together on the first scene in the film to go into production: the confrontation between

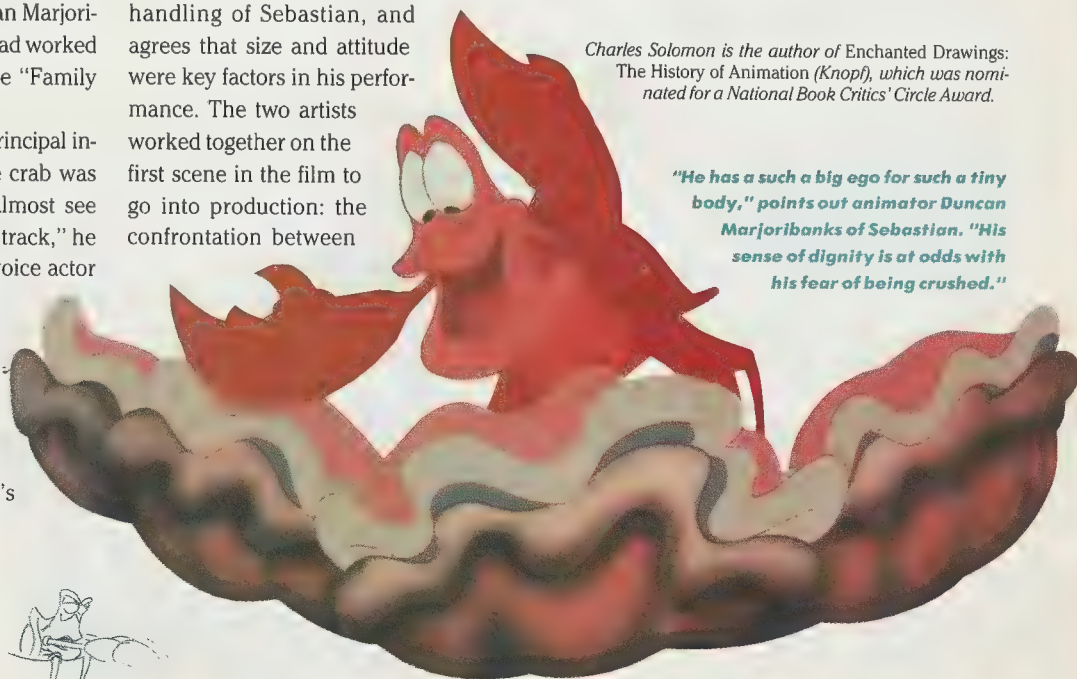

Triton and Sebastian, when the Crab accidentally blurts out that Ariel has been seeing a human.

“It was fun to play with the different sizes of the characters,” comments Deja. “Sebastian is tiny, while Triton is an oversized giant. Duncan animated Sebastian in down shots, so I worked in reverse, animating Triton from Sebastian's point of view, looking up at that big nose and big beard. Sebastian has a complex relationship with the king: He's a dutiful conductor and a friend of Ariel's, but he's also the King's adviser. Triton listens to him and trusts him, which is such a funny situation: How can a crab be an adviser to a big sea king? It could only work in animation.”

“We felt it was fun to work with fish and crabs and things other than mice and dogs and cats,” concludes Clements. “But when you're dealing with a character that's harder to make appealing, you think, ‘Gee, it'd be so much easier to do dogs or mice.’ I mean, how do you do a cute crab? But when it actually succeeds, I think the fact that it was harder to do makes it better.” □

Charles Solomon is the author of Enchanted Drawings: The History of Animation (Knopf), which was nominated for a National Book Critics' Circle Award.

“He has such a big ego for such a tiny body,” points out animator Duncan Marjoribanks of Sebastian. “His sense of dignity is at odds with his fear of being crushed.”

THE HIGHWAY

Johnny Cash, Kris Kristofferson, Waylon & Willie—is this the greatest collection of country legends in one group, or what?

By Dave Marsh

EA **I** grew up with a long and lean and hungry look/ Learned you can't go nowhere when you go by the book," sings Waylon Jennings in "Trouble Man," a song that appears near the beginning of *Highwaymen Live!*

Jennings sings those lines with an air of wonder and bemusement. Sporting shoulder-length hair with just a touch of grey, and a black leather vest, Waylon looks everything "Trouble Man" implies he is: a country star, an outlaw, a sensitive artist, a man perfectly at ease in all his contradiction.

Those words and Jennings's attitude seem to speak as well for his fellow members in one of popular music's least likely supergroups. The Highwaymen include, in addition to premier outlaw Jennings, his old Nashville-and-points-south running-mate Johnny Cash, country's most likely nominee for a fifth face at Mt. Rushmore; Willie Nelson, The Frank Sinatra of white blues and one of the greatest songwriters ever to stroll Music Row and by far the greatest ever to abandon it for a free-range long-hair lifestyle in the hippie center of Austin, Texas; and the blue-eyed matinee idol Kris Kristofferson, Nashville's first answer to Bob Dylan.

Separately and together, the music these men have made over the past 35 years has defined and redefined the idea of country music. Johnny Cash, who made his first records in the same studio as Elvis Presley, was the first to re-import the rock & roll beat to Nashville with hits like "Folsom Prison Blues," "I Walk the Line" and "Ring of Fire"; with later hits like "The Ballad of Ira Hayes," he reclaimed country's tradition of populist social commentary after a long dry spell; novelties like "A Boy Named Sue" and "The One On the Right's On the Left" made him momentarily a pop star.

More recently, Cash has sung gravely of

heartbreak and history, using folk tunes and folksy attitude to convey a sense of timelessness. Johnny Cash is simply revered by his peers, not least the other Highwaymen; throughout this program, each in turn defers to him onstage, and in the brief interviews that are interspersed between musical sections, he's the one about whom each of the others has a story to tell. "He's larger than life—even standing up there next to him on stage," says Kristofferson. "He is the father of our country." Johnny Cash isn't the leader of the band, because bands like this don't have leaders. Call him their heart.

Stardom came later to Willie Nelson than to any of the others, but he's been around longer than anyone but Cash. Nelson spent better than a decade as one of country's best songwriters, penning a batch of honky-tonk classics, beginning with Patsy Cline's "Crazy" in 1961 and going on to embrace Ray Price's "Night Life," "Hello Walls" for Faron Young

and "Funny How Time Slips Away," which has been sung by myriad singers in every field from soft pop to hard blues.

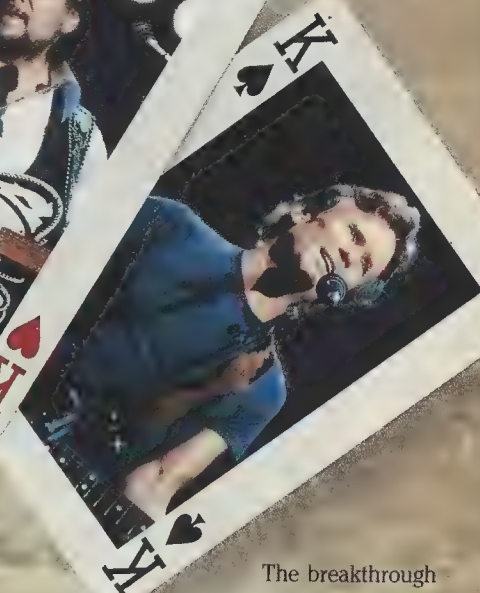

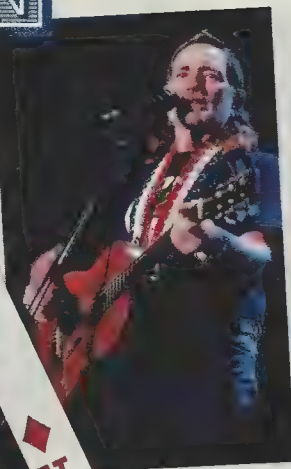

But Nelson always stood out as a Music Row malcontent, and in the early '70s he headed back to Texas, where he began recording the series of unconventional albums, some conceptual, some composed primarily of the hoariest standards, many featuring duets with an amazingly wide range of performers (Julio Iglesias was one). All espoused an ethic that was both revolutionary, in that it ignored Nashville's penchant for "sweetening" country with strings and choruses, and strikingly traditional, in the way it drew upon old-fashioned songs, melodies, and for that matter, singing techniques.

Indeed, there is no finer ballad singer in any field of American music than this grandfatherly longhair. He's also one of the most beleaguered, suffering legendary bouts with debt and the IRS and a variety of personal demons, some so bad that, Jennings tells us, "At one time I even

Take the Man in Black, country's two premiere Outlaws, and one of the most original songwriters ever and you have the Highwaymen—men who have given country music many of its most memorable songs.

MENT

thought he wasn't gonna make it." Peering out of bleak blue eyes that seem to have seen it all and then some, Willie Nelson is, perhaps despite himself, the visionary among this extraordinary troupe.

Waylon Jennings and Kris Kristofferson are about the same age, and they're both from West Texas, but that's where the similarity in their early lives ends. Jennings got his start as a rockabilly, an aspiring Buddy Holly (Holly himself produced his first sides), then became a local disc jockey in Phoenix. He didn't end up in Nashville until '65, whereupon he became Johnny Cash's running mate through the most adventuresome period of their lives. Cash straightened up, to the point that today, he's born again and often records religious material. Meanwhile Waylon joined forces with Willie Nelson and a few others to form country's "Outlaw" wing. Waylon and Willie actually toured and recorded in the Seventies under that moniker, in a duo that was in some respects a precursor to the Highwaymen.

Mainly, what the Outlaws rebelled against was Nashville's musical and stylistic conformity. They wanted to record their own material, and record it much more plainly—that is, traditionally—than Nashville expected. As Johnny Cash explains onstage, Waylon is both a Nashville rebel and an American success story. He says this by way of introducing Waylon's magnificent rendition of his Outlaw statement of purpose, "Are You Sure Hank Done It

This Way?" With his massive bulk and sheer self-confidence, Waylon Jennings is clearly the soul of the Highwaymen.

Just as clearly, Kris Kristofferson is their principal brain. For the first twenty-odd years of his life, Kris Kristofferson did none of the typical things that music stars do: The son of a two-star general, he grew up in Brownsville, on the Mexican border, and then went off to Pomona College in California, where he starred in soccer and football. In fact Kristofferson was so little the misfit that he was sent as a Rhodes scholar to England's Oxford University. When he came back home, he wanted to be a novelist; instead, he enlisted in the Army, and became a helicopter pilot. It wasn't until he got out of the Army in 1965 that he even thought

The breakthrough came when Roger Miller agreed to record "Me and Bobby McGee," but what made Kris Kristofferson a star was having songs like "Sunday Morning Coming Down" and "Help Me Make It Through The Night" featured on Johnny Cash's network TV show. So *Highwaymen Live!* literally brings Kristofferson full circle.

As it does for all of them. One of the unexpected surprises offered by *Highwaymen Live!* is its rich retrospective of many of modern country's best songs. They roll out of these men like oil gushing from a well: "You Were Always On My Mind," "Me and Bobby McGee," "Desperadoes Waiting for a Train," "Mommas, Don't Let Your Babies Grow Up To Be Cowboys," and a half dozen more just as strong, just as powerful, just as emblematic of the set of sensibilities we associate with country music. Today's country is anything but stylistically unsophisticated, but as each man takes his turn at the mike, he takes downhome pleasure in crafting something so fine that it's made such esteemed companions respond so joyously. Near the end of the show, Waylon Jennings reaches for a phrase to sum it up and finds it in the plainest fact of all: "The best thing about the Highwaymen is the music. The songs."

No one who sees and hears them will disagree.

A noted music critic and historian, Dave Marsh has written books on Elvis, Bruce Springsteen, and the greatest rock and soul singles of all time.

of Nashville; he still wanted to be a writer. As he recounts in *Highwaymen Live!*, he wound up working as a janitor at Columbia Recording Studios, where he observed such stars as Johnny Cash make their albums. What Kristofferson doesn't note is that his songs were so unconventional that it took him four years to get one of them recorded.

A little sleepyhead just
up from her afternoon nap...

"Lisa"

Shown smaller than actual size of
12 inches long. Complete with nap
pillow (15 inches long).

When the summer breezes first lulled "Lisa" to sleep, Mommy gently put her down on her nap pillow. Now "Lisa" is just waking up. Eyes still partially closed, flexing her chubby legs, she's just about ready to enjoy another afternoon of her very first summer.

"Lisa" is the new addition to a legendary collection of porcelain baby dolls by Yolanda Bello.

This dreamy little girl looks like she's just taken her thumb from her mouth as she snuggles into her nap pillow. Her sunsuit and matching hat feature row after row of delicate lace, and her pillow is ruffled and trimmed with embroidered ribbon.

Recommended by Ashton-Drake, "Lisa" has been certified Premiere Grade—your assurance of superior artistry and craftsmanship. At \$63, she's an heirloom-quality doll of exceptional value today, and may be a wise investment for the future.

Welcome this little sleepyhead into your home. But act promptly... "Lisa" is issued in an edition ending forever in 1991, after which molds for this doll will be broken and no more porcelain for "Lisa" will ever be cast. Order today.

Metro-Goldwyn-Mayer and Turner Entertainment present a golden anniversary tribute to America's best-loved movie classic

Shown slightly smaller than actual size of approximately 4" in height.

An enchanting collection of 20 memorable characters. Crafted in porcelain and painted entirely by hand.

Dorothy. The Tin Man. The Cowardly Lion. The Scarecrow.

And 16 other members from the most fascinating cast of characters ever assembled on the silver screen.

Each a superb portrait sculpture crafted in Tesori® porcelain, a sculptor's blend of powdered porcelain and resins capable of holding the most intricate detail. Painted by hand in all the vivid colors from the movie.

Each familiar face brought to life as

never before. Each charming costume authentically re-created.

An enchanting "Emerald City" display, custom-designed to showcase your imported collection.

The premier collection carrying the official authorization of MGM and Turner Entertainment.

Priced at \$35 each. The specially designed display cabinet is included as part of the collection.

THE CAR THAT STUNNED THE AUTOMOTIVE WORLD

Corvette STING RAY

CHEVROLET

The 1963 Corvette Sting Ray. America's dream machine. The sports car that stunned the automotive world with its revolutionary design and performance.

Now, Chevrolet Motor Division, in association with Franklin Mint Precision Models, presents the definitive die-cast re-creation of the 1963 Corvette Sting Ray.

Here is a precision-engineered model, authentic in all its detail. From the distinctive split rear window to the chrome-plated wheels.

There is also a wide array of operating features: the steering wheel and road wheels actually turn. Doors open and close. Even the hood lifts to reveal the powerful 327 cubic inch V-8 engine. It's the definitive model of the Corvette that stunned America. The price, just \$90.

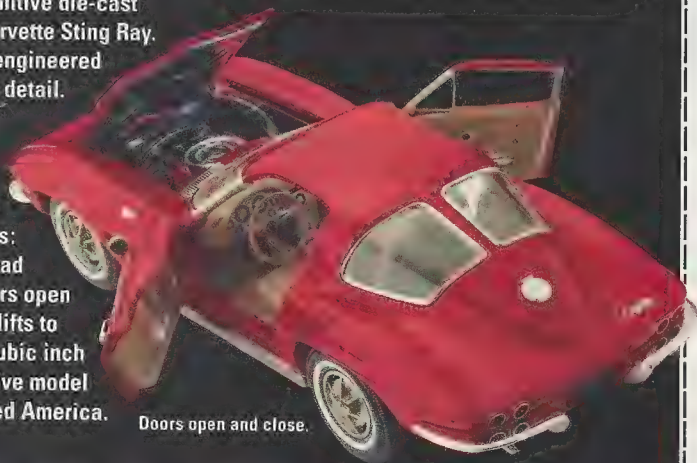

Presented by Chevrolet Motor Division
in association with
Franklin Mint Precision Models.

The definitive die-cast replica
of the first Sting Ray.

Crafted in 1:24 scale of 113 separate parts.

THIRTY-DAY RETURN ASSURANCE POLICY

If you wish to return any Franklin Mint Precision Models purchase, you may do so within 30 days of your receipt of that purchase for replacement, credit or refund.

Doors open and close.

Shown approximately actual size
of 7 1/8" L. Scale 1:24.

The interior is highly detailed, down
to the realistic instrumentation.

Please mail by June 30, 1991.

THE SHIRLEY TEMPLE COLLECTOR DOLL

*"Little Princess"*TM

"The best doll of me ever done!"
Shirley Temple

*Shown much smaller than actual size
of approximately 20" in height, including crown.*

Unsurpassed realism and artistry bring to life
the silver screen's legendary child star
in the premier Shirley Temple collector doll of all time.

Beloved by millions, Shirley Temple reigns as the greatest child star in movie history. To many of her devoted fans, she will always be "The Little Princess," the part she portrayed so memorably in one of her most famous films. Now, award-winning doll artist Elke Hutchens brings Shirley Temple breathtakingly to life as *Little Princess*—the premier Shirley Temple collector doll of all time!

"The best doll of me ever done!"

That's what Shirley Temple said when she saw *Little Princess* for the first time. And that's no surprise because Elke Hutchens spent months sculpting, re-sculpting and then refining the doll's beautiful face. Such an incredible likeness of Shirley Temple—from her renowned dimples, to her cute button nose and radiant smile—*has never before been available in a collector doll!*

The epitome of the doll maker's art.

The doll's head, arms and legs are handcrafted of fine bisque porcelain. Her beautiful brown eyes are warm and expressive and fine lashes frame her eyelids. Each precious feature is delicately hand-painted to reflect all the warmth and vitality of Shirley Temple's sparkling personality.

A landmark portrait doll like *Little Princess* deserves an equally important costume. No expense has been spared to create the doll's authentic, meticulously hand-stitched outfit. Its extravagance will astonish you...the cape alone measures *over 20 inches* from collar to hem! Billowing with satin, golden lamé and faux-fur trimming, it is truly a costume fit for a Princess!

The one doll you must have in your collection!

Little Princess is available exclusively from the Danbury Mint and is priced at \$234, payable in six monthly installments of only \$39. This is a superb value considering *Little Princess* is the foremost Shirley Temple doll *ever* created, and is sculpted by a world-renowned doll artist. If you're a Shirley Temple fan or doll collector, this is the one doll you *must* have in your collection! Don't delay...return the Reservation Application *today!*

The regal gown Shirley Temple wore in "The Little Princess" has been re-created in authentic detail. Fashioned of rich white satin, it is enhanced with golden lamé trim and an intricate scroll design of glistening amber beads.

the Danbury Mint

47 Richards Avenue • Norwalk, Conn. 06857

Artfully painted by hand, each precious feature glows with the charm and vitality of Shirley Temple's sparkling personality.

An extraordinarily realistic portrait doll, Little Princess will be admired wherever you display her in your home.

to make a child's dream come true

When you buy FOR OUR CHILDREN, you're helping
all the world's children inflicted with the AIDS virus.

Walt Disney Records will donate all proceeds from
FOR OUR CHILDREN to the Pediatric AIDS
Foundation, a non-profit organization dedicated
to creating a future that will offer effective
therapies and possible cures for children and newborns
infected with AIDS.

Imagine Bob Dylan singing "This Old Man," or
Paul McCartney singing "Mary Had a Little Lamb."
FOR OUR CHILDREN is the perfect addition to every
family's musical library.

Twenty stars and one dream—help us make it come true.

All proceeds from FOR OUR CHILDREN will
be donated to the Pediatric AIDS Foundation to assist
in pediatric AIDS research.

Available on cassette and compact disc
wherever Disney music is sold.
